

Wage and Hour Division, Labor

§ 780.128

customarily performed in connection with breeding, feeding and caring for fur-bearing animals, including the treatment of disease. Such treatment of disease has reference only to disease of the animals being bred and does not refer to the use of such animals or their fur in experimenting with disease or treating diseases in others. The fact that muskrats or other fur-bearing animals are propagated in open water or marsh areas rather than in pens does not prevent the raising of such animals from constituting the “raising of fur-bearing animals.” Where wild fur-bearing animals propagate in their native habitat and are not raised as above described, the trapping or hunting of such animals and activities incidental thereto are not included within section 3(f).

§ 780.125 Raising of poultry in general.

(a) The term “poultry” includes domesticated fowl and game birds. Ducks and pigeons are included. Canaries and parakeets are not included.

(b) The “raising” of poultry includes the breeding, hatching, propagating, feeding, and general care of poultry. Slaughtering, which is the antithesis of “raising,” is not included. To constitute “agriculture,” slaughtering must come within the secondary meaning of the term “agriculture.” The temporary feeding and care of chickens and other poultry for a few days pending sale, shipment or slaughter is not the “raising” of poultry. However, feeding, fattening and caring for poultry over a substantial period may constitute the “raising” of poultry.

§ 780.126 Contract arrangements for raising poultry.

Feed dealers and processors sometimes enter into contractual arrangements with farmers under which the latter agree to raise to marketable size baby chicks supplied by the former who also undertake to furnish all the required feed and possibly additional items. Typically, the feed dealer or processor retains title to the chickens until they are sold. Under such an arrangement, the activities of the farmers and their employees in raising the poultry are clearly within section 3(f). The activities of the feed dealer or

processor, on the other hand, are not “raising of poultry” and employees engaged in them cannot be considered agricultural employees on that ground. Employees of the feed dealer or processor who perform work on a farm as an incident to or in conjunction with the raising of poultry on the farm are employed in “secondary” agriculture (see §§ 780.137 *et seq.* and *Johnston v. Cotton Producers Assn.*, 244 F. 2d 553).

§ 780.127 Hatchery operations.

Hatchery operations incident to the breeding of poultry, whether performed in a rural or urban location, are the “raising of poultry” (*Miller Hatcheries v. Boyer*, 131 F. 2d 283). The application of section 3(f) to employees of hatcheries is further discussed in §§ 780.210 through 780.214.

PRACTICES EXEMPT UNDER “SECONDARY” MEANING OF AGRICULTURE GENERALLY

§ 780.128 General statement on “secondary” agriculture.

The discussion in §§ 780.106 through 780.127 relates to the direct farming operations which come within the “primary” meaning of the definition of “agriculture.” As defined in section 3(f) “agriculture” includes not only the farming activities described in the “primary” meaning but also includes, in its “secondary” meaning, “any practices (including any forestry or lumbering operations) performed by a farmer or on a farm as an incident to or in conjunction with such farming operations, including preparation for market delivery to storage or to market or to carriers for transportation to market.” The legislative history makes it plain that this language was particularly included to make certain that independent contractors such as threshers of wheat, who travel around from farm to farm to assist farmers in what is recognized as a purely agricultural task and also to assist a farmer in getting his agricultural goods to market in their raw or natural state, should be included within the definition of agricultural employees (see *Bowie v. Gonzalez*, 117 F. 2d 11; 81 Cong. Rec. 7876, 7888).
